

REIDRO

PROFESSIONAL PRESSURE WASHER

Del Morino

FARM & GARDEN EQUIPMENT

The REIDRO professional pressure washer is ideal for carrying out all the operations that require a powerful and adjustable water jet being able to adapt it to all work needs. The pressure washer can be powered by a tank mounted on the RINO® box or by direct connection to a low pressure water line. As an option it can be equipped with an automatic and adjustable detergent tank.

It provides good autonomy results thanks to its low energy demand (over 8 hours).

Standard technical features • Folded and painted steel frame • Total width 62 cm • High pressure COMET pump 120 bar • 10m hose • Lance with nozzle • Quick attach category 0
